

## LET US HELP YOU IMPROVE AND ENHANCE YOUR GUESTS' HOTEL EXPERIENCE

**NO COST** » A Necessivend machine comes at no cost to you. We provide the machine as well as pay for stocking and maintenance, all you do is provide the customer (hotel guests) and any product feedback.

**PROFIT** » The hotel gets a 20% profit split on all transactions with no cost to your hotel. You can just sit back and watch the money roll in!

**PRODUCT** » We provide a wide variety of travel toiletries, over-the-counter medicines, electronic necessities such as phone chargers and ear buds, as well as healthy snacks.

**PAYMENT** » Machines accept debit, credit, Apple Pay and can be programmed to accept hotel room keys.

**SECURITY** » Necessivend is aware that many hotels have stations or shelves for travel items. What we can offer is a safe place to sell those items because a shelf lacks the security and monitoring you need.

**"GREEN"** » At Necessivend, we are serious about the environment and energy efficiency. Our machines use LED lighting, a balanced airflow design, utilize energy-saving programmable shut down modules and use less than 5.7 kWh per day.
