

LET US HELP IMPROVE AND ENHANCE YOUR GUEST'S HOTEL VENDING EXPERIENCE

NO COST > Colite vending comes at no cost to you. We provide the machine, as well as pay for stocking and maintenance. The only thing you provide is an electrical outlet, an ethernet or wireless connection, and any product or selection feedback or changes regarding the selection process.

PROFIT > The hotel gets a 20% revenue share on all transactions. You can just sit back and watch the money roll in!

PRODUCT > We provide a wide variety of travel toiletries, over-the-counter medicines, electronic necessities such as phone chargers and ear buds, as well as healthy snacks.

PRODUCT > Machines accept debit, credit, Apple Pay, and can be programmed to accept hotel key cards.

SECURITY > What we offer is a safeplace to sell those items without the need of security and monitoring that a shelf or kiosk would require.

"GREEN" > We are serious about the environment and energy efficiency. Our machines use LED lighting, a balanced airflow design, utilizes energy-saving, programmable shut down modules, and uses less than 5.7 Kwh per day.
